

BEN'S NEXT DOOR

Washington, DC
9,300 sf

A District icon. ADI renovates and expands Ben's Chili Bowl. The scope included the interior construction of three floors, Ben's brand new 53-foot bar (one of the longest in DC), the kitchen, offices, and storage rooms. Even with permit delays and a strict phasing schedule, ADI completed the project on schedule and in time for the 2009 Presidential Inauguration.
